Promoting innovative and creative teaching strategies to challenge our youth.

Dear Teacher:

Attached are applications for the 2026-2027 Dearborn County Retired Teachers Foundation's Educator Grant Award. Our mission is to bring innovative and creative learning to the classroom. We hope to fund projects/programs which are not otherwise covered by your school budget. We offer up to \$750. Most grants are for \$500 but if there are special circumstances, additional monies are available.

We have our presentation of the grants in August, which we ask you to attend. We do require a follow-up with photos and a story about the impact of the grant money on at least one of your students. We, of course, encourage you to keep the students' identities private as per federal guidelines.

As retired teachers we feel we understand your classroom needs and wants. We appreciate your service to our schools and to our communities.

Sincerely,

Christelle Middendorf
